

CHANGING CONVERSATIONS ABOUT RACE WITH IMMERSIVE LEARNING

Results from over **2,000 students** and staff sessions in Bodyswaps' anti-racism training modules **confirm the effectiveness of immersive learning** as a pedagogical tool for transforming behavior.

Learners' Feedback

Students said...

“
I absolutely **loved this way of learning**. The way the avatars spoke and explained different and new definitions to me really helped me to understand and become more aware of racism.
”

Michele

I found the experience to be **fun and different** as well as educational all at once.

It was a good way to demonstrate **real world issues and experiences**.

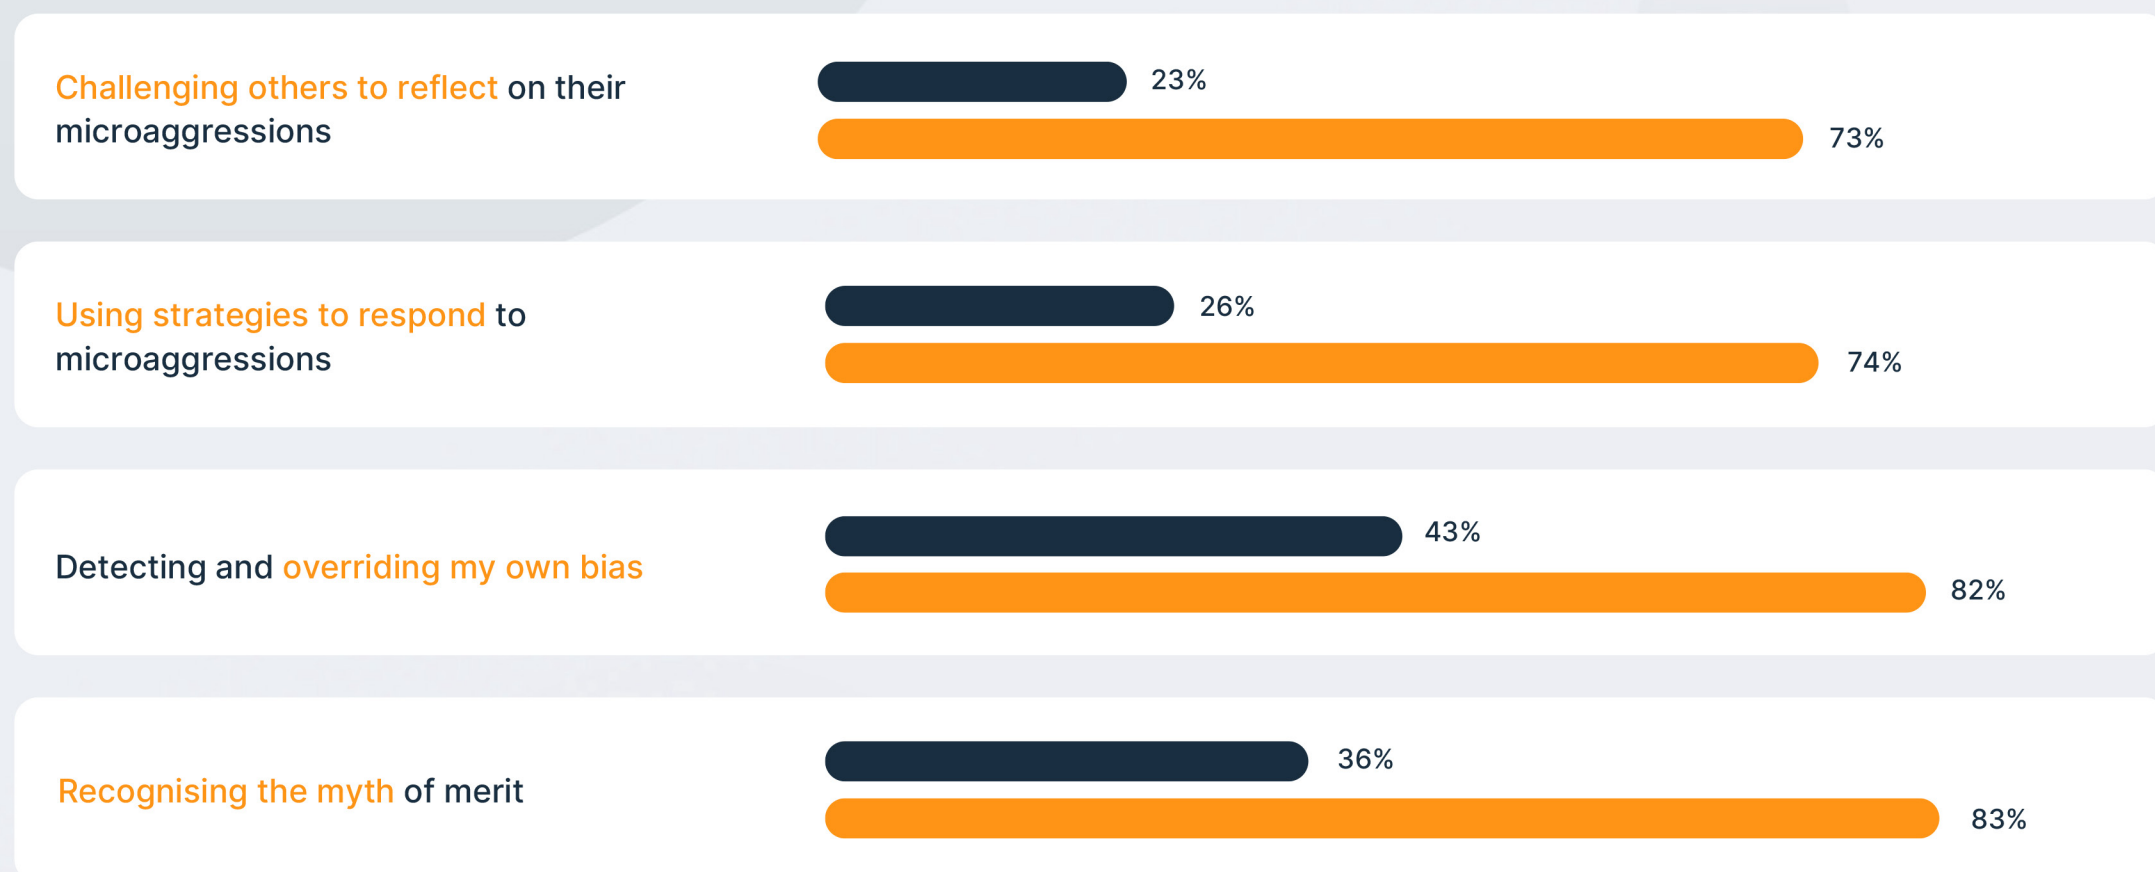

Sowon

“
It was very **helpful** to learn how we can express our emotions without harming others' feelings. I think it's time to take action for reducing stereotypes and negative perspectives from our brain!
”

Nadia

 % of students feeling confident **after** VR experience

Testimonials

When using this with my class, my students found it really thought provoking. It was a great tool to have them open up and interrogate the race based assumptions they participate in and how to **become an ally in a non judgemental, safe environment**.

Charlene Dustan

Co-chair of George Brown College's Anti-Racism Equity Advisory Board

Let's Talk About Race is the perfect resource to support course content or to use as an assignment after sessions on Anti-Racism and Anti-Oppression. It provided my students **opportunities to reflect** on their own biases, and they shared that they felt more confident to talk about race and to challenge biases and microaggression.
